Photo Courtesy: Donaldson Collection/Getty Images If gangster lore sparks your imagination, then Al Capone is probably a name you know quite well. Throughout his life of crime, Capone was responsible for many brutal acts of violence, including the infamous St. Valentine's Day Massacre that took place in Chicago in 1929. His Chicago-based organized crime operation reportedly brought in \$100 million annually. Capone gravitated to the spotlight at a time when most gangsters tried hard to keep their names and their faces off the front page. His fascination with fame could be one reason his legacy endures to this day. He is certainly one of the country's most famous gangsters, but does he rank as America's greatest criminal? You be the judge! Early Life in New York Al Capone was born in 1899 in Brooklyn, New York. He was the son of Italian immigrants who made the journey to America in hopes of establishing a better life for themselves and their eight children. Photo Courtesy: Chicago Bureau/Wikimedia Commons His mother worked as a seamstress, and his father worked as a barber. Capone's early life in New York was nothing out of the ordinary for Italian immigrants during the time. There was certainly nothing about his childhood that would have tipped anyone off that he would eventually embark on a life of crime. As a child, Capone was reportedly a very good student when he went to elementary school in Brooklyn. Things took a downturn by the sixth grade, however, when he started skipping school and hanging out by the Brooklyn docks instead. Photo Courtesy: Chicago History Museum/Getty Images Capone was ultimately forced to repeat the sixth grade due to his poor performance in school. Things got even worse for him at school after a teacher struck him for his misbehavior, and he hit back. In response, the principal of the school gave him a beating, and he never again returned to school. Photo Courtesy: New York Times Co./Getty Images The woman's brother punched Capone as a result of the comment, and she slashed him across the face, leaving three noticeable scars. The attack and the subsequent scars first led to some of his fellow gangsters calling him éAAAScarface.éAAAMarried with Children at 19Al Capone's first and only son, Albert Francis, was born when he was only 19 years old. Capone married Mae Coughlin just weeks after the child was born. Johnny Torrio served as the boy's Godfather, an important Italian tradition. Photo Courtesy: ullstein bild Dtl./Getty Images With Capone then a husband and a father, he tried to do right by them and provide for them by doing honest work. In that quest, he moved to Baltimore and began to work as a bookkeeper for a construction company. However, as with every other attempt Capone made to lead a law-abiding life, this effort to abide by the law didn't last. Father's Death Although it appeared éAAA at least for a while éAAA that Capone intended to settle into a life of honest employment, something happened in 1920 that sent him right back to a life of crime. That was the year his father died of a heart attack. Photo Courtesy: Chicago Tribune/Getty Images Not long after the death, Torrio invited Capone to work for him in Chicago, and he decided to take him up on the opportunity. His life as a family man working honest jobs was over, and his move to Chicago in 1920 firmly set him on a course to infamy. Moving to Chicago When Capone joined Torrio in Chicago, he discovered his mob mentor was running a lucrative criminal business. Torrio was involved in all sorts of underworld including game and prostitution. It wasn't long before a new open business opportunity for Capone. Photo courtesy: Daniel Schwen/Wikimedia Commons A famous and very hated law passed that year that played an important role in the formation of the criminal career of Al Capone, as well as the establishment of many other families of the underworld throughout the country. In 1920, the ban prohibited the sale and consumption of alcohol in the United States. Although it was unpopular, the law remained in force until 1933, which led to a multi-million-dollar industry related to illegal alcohol during that period of 13 years. Introduction of the Ban The prohibition in the United States lasted from 1920 to 1933 and was largely due to the concerns of citizens who saw alcohol as a social problem. Indeed, by the time the ban began at the national level in 1920, many communities and states had already assumed the ban on the sale and consumption of alcohol in their region. Photo courtesy: Public Domain/Wikimedia Commons The ban on alcohol allowed gangsters like Capone and Torrio to develop lucrative startup operations. Many criminal operations of the underworld saw a great expansion in their operations and territories as a result of the money they made of spoil during this time. Partnering in a lucrative financing operation Usurped prohibition in new and lucrative times for the criminal underworld, as citizens who previously had the right resorted to the black market to buy the alcohol they had legally consumed. With a new harvest of customers and money coming in, Capone used his smart alleys and his experience with numbers to run operations in Chicago. Photo Courtesy: Ontario/Wikimedia Commons Torrio Files noticed his skills and quickly promoted him to partner. The movement Officially to Capone an important player in the Chicago Underworld. He soon began to show trends that Torrio did not do it, he did, High profile gangster in contrast to Torrio and many other Gnesters of the á© little, Capone was not interested in maintaining a low profile. Instead of staying under radar and avoiding problems, he developed a reputation as a drinker and uprising. Other Gnesters avoided such behavior for fear that they would attract the attention of the authorities, possibly even arrest them. Photo Cortesia: Keystone/Getty Images Capone did not seem to import attention. In fact, there was nothing profile under it, since their Chicago smuggling operations took off. From the beginning, it was his tendency to enjoy attention to consolidate his name in pop culture. He of the drunk driving that each of 1920 continued, as well as the drink and problems of Capone. He was first arrested in his life completely out of control and even turned out that some voters were killed and killed. In response, Chicago sent Cicero to the Poltro to handle the situation. As a result, they shot and killed Capone's brother, Frank Capone. The Chicago Down Down Frank Capone Frank Capone was four years older than his brother, and worked with him in the division of the Chicago mafia. The day of the elections in Cicero in 1924, the citizens requested the Chicago Police to send the officers to the polls to prevent the Chicago team from intimidating voters. Johnny Torrio Return to Italy Next year (1925), the mafia rivals made an attempt for Torrio's life. The experience led Torrio to decide to leave

the companies he built and return to Italy. He had been Al Capone's mentor in the criminal underworld and had tried to remove the gangster from activities that could cause his fall. Photo courtesy: Bettman/Getty Images As a result of Torrio's departure, Capone inherited full control of Chicago's operations. Before returning to Italy, Torrio advised him to keep a low profile. Once again, his advice fell into deaf ears. Living a Luxurious Life in Downtown ChicagoBeyond listening to the advice of his mentor, Al Capone began to enjoy a very luxurious lifestyle in public view as soon as Torrio returned to Italy. Once he was in full control of Chicago's robbery operations, he felt he was on top of the criminal underworld. Photo courtesy: Daniel Schwen/Wikimedia Commons Capone moved to a luxury suite at the Metropole Hotel located in downtown Chicago, and then moved to the headquarters of his operations there. I was just spending cash to avoid any troubled paper trail. The media reported that Capone's operations were carrying \$100 million a year. \$100 million in revenue generated per year As the 1920s and the ban continued, Al Capone's block operations and other criminal companies thrived. The newspaper articles at that time stated that their operations generated \$100 million in annual revenue. I was spending carefully, but I had a lot more to get back to your bank accounts. Photo Courtesy: Chicago Bureau/Wikimedia Capone's luxurious lifestyle was covered in the mediaand became a public figure every time more recognizable. It was also during this time the public public feeling The gangsters became more and more positive due to the hate of the public in general to the prohibition. Many citizens developed sympathy and even respect for the ankle boots that were supplied with alcohol. Robin Hood Figure The media began to inform about each Movement of Capone as he dragged more and more in the public consciousness. The image that occurred through the media of communication was often portrayed as a generous person. He was to the summer who gave back to the community where he lived, which further added to his public appeal of him. Photo Cortesía: U.S National Archives and Records Administration/Wikimedia Commons as the feeling of antiprohibition in society increased, there was an equal amount of positive feeling aimed at people like the capone. He became something of a Robin Hood figure while he opened soup kitchens and committed himself in other charitable efforts around the city. Somehow, these efforts left the public activities violent. William McSwiggin murder in 1926, a mistake was made that costs Capone's operations. He saw two of his rivals in Cicerin and gave the order for his men to tear them down. What he did not know was that a local prosecutor was the third man walking with the other two men. Photo Cortesía: Chicago History Museum / Getty Images The name of the man was William McSwiggin, and he had a creepy nickname of his own: à the hanging prosecutorà. McSwiggin was shot and killed with the other two men, taking the public to demand justice. Capone had been in good thanks to the public for years, but the murder of a government employee "especially innocent" changed that. Police Retaliation after the murder of William McSwiggin, the police was more motivated to go after Capone. The authorities would not have evidence to accuse him of the aidemikiW/nosfatsuG aidemikiW/nosfatsuG tterB :aÀsetroc otoF :sabeurp racsub arap enopaC ed soicogen sol a racata ne etnemetetsisrep norartnec es orep They never found evidence of the murder, but what they found was information that later used to strengthen charges against Capone for not paying rent taxes. As everyone knows, it is illegal not to pay taxes on income about all the money earned, even if that income is obtained by illegal means. In response to the increase in police pressure, Capone helped to organize a conference for figures of the underworld in Atlantic City. The Atlide City Conference to the growing police pressure that Capone's operations experienced at the end of twenty years, facilitated a meeting of organized crime in the United States. The summit was held from May 13 to 16, 1929, in Atlantic City. Photo Cortesia: Crazy Weird Cool Shows/YouTube The main objective of the conference was to discuss how the criminal organizations of the PAES could avoid violent conflicts that aroused greater public attention and police attention. The idea was that if the criminal organizations of the entire PAI could stop their fight, they could increase their profits as police pressure decreased. Although an agreement was concerted, he only lasts a couple of months. Valentine Massacre in 1929, with Capone still dominating the black market of alcohol in Chicago, other runners were Vying on the part of the starter cake. One of the men who was looking for a most of the black market was Bugs Moran. Photo Courtesy: Chicago History Museum/Getty Images the rumor that Moran was after Capone's first murderer at that time, à € emachine gunà € Jack McGurn. In response, McGurn's gunmen raised themselves as Poly and murdered seven of Moran's men in cold blood in a garage. The mistakes dwell in advance, however. The media immediately blamed Capone for the actions and nicknamed him à € For fiscal evasion after the massacre of the Valentine's Day. President Herbert Hoover caused the federal government to increase its efforts to go after Capone. As a result a Supreme Court ruling in 1927, all income acquired in the United States from illegal activities still had to be taxed. Because Capone had not been paying taxes, he was guilty of tax evasion. Photo Courtesy: FBI/United States Prison Office/Wikimedia Commons The federal government used evidence obtained during the raids of its businesses to accuse Capone of 22 tax evasion charges. The charges were officially filed on 5 June 1931. A plea agreement was rejected, and the case was brought to trial. Sent to Alcatraz When the courts rejected Capone's negotiation agreement, he withdrew his guilt statement and attempted a new strategy to withdraw from the charges. He used bribery and intimidation tactics on the jury in the hope that they would finally make a decision on his behalf. Photo courtesy: Three socks/Wikimedia Commons The judge who presides the trial had a trick on the sleeve, however. He changed to a completely new jury at the last moment. Capone was sent to prison for 11 years after the jury found him guilty. He was imprisoned in the infamous prison of Alcatraz Island in 1934. Living in a mental hospital in Baltimore Capone began to suffer from poor health while in prison. It was during his stay in Alcatraz that doctors discovered he had contracted syphilis when he was younger. He had never been treated to stop the disease, so he grew worse and began to cause symptoms of dementia. Photo courtesy: MedStar Health/YouTube As a result of his worsening health, Capone was released to a mental hospital in Baltimore in 1939. Other medical facilities refused to take him as a patient. He spent three years in the hospital before moving to Miami, where he spent the rest of his life with his family. Final Days in Miami and DeathCapone moved to Miami from the hospital in Baltimore. His health has continued to fall as a result of his syphilis and dementia. He suffered a cardiac arrest andon January 25, 1947, only eight days after his 48th birthday. Photo Courtesy: Marine 69-71/Wikimedia Commons His death made first-page news with The New York Times with a headline saying "End of An Evil Dream". Capone's time as an important figure in the criminal underworld was controversial and sparking polarizing views. Some feel the repeal of the ban in 1933 claimed Capone, but others are not so fast to ignore their many violent acts. Legacy of Al CaponeAl Capone left a legacy when he died in 1947. He had been an important player in the criminal underworld of Chicago over the 1920s, but he was only 33 years old when he went to prison. His time at the top of the ranks of the American gangsters was only seven years, but most of the country thinks of Al Capone as the face of organized crime during the ban. Photo Courtesy: JOE M500/Wikimedia Commons Several films and TV shows have presented Capone, including the 1959 Capone, the HBO Gateway Empire, the television intocables (as well as the film), the 1967 Valentine's Day Massacre and many more.
